EXPLANATORY NOTES

Most of the tables in this publication have been prepared entirely on a monthly basis to provide easy comparison of data. With a few exceptions, annual and quarterly figures are expressed as monthly averages and these can be converted to actual totals by multiplying by 12 and 3 respectively.

For example (from page 5):

Births in year 1966 -

Monthly average 1,693

Therefore annual total = $12 \times 1,693 = 20,316$

(Actual figure is 20,319)

Deaths in December quarter 1966 -

Monthly average 811

Therefore quarterly total = $3 \times 811 = 2,433$

(Actual figure is 2,434)

The statistics as published can be adapted to give information in a number of different forms. For instance -

- (1) Details can be obtained for calendar or financial years as required by addition of figures for the four relevant quarters.
- (2) Progress total for the year to date can be obtained by adding totals of quarters and months, e.g. if May figures are the latest published, total for the 5 months to May = $3 \times$ monthly average of March quarter + April and May.

This procedure can be used to calculate corresponding figures for the same period of the previous two years or similar information on a financial year basis.

Details of production on pages 10-13 are for selected items only. Particulars for several commodities of considerable importance in this State have been withheld because publication would reveal confidential information. Final amendments are made only to annual and not to quarterly production figures so that monthly averages for the year and the four quarters will not necessarily reconcile.

In tables where figures have been rounded, discrepancies between totals and sums of components are due to rounding.

ABBREVIATIONS USED

Throughout this bulletin the following symbols have been used -

n.a. Not collected, not available for publication, or not applicable.

- Nil (or less than 0.5).

p Preliminary figures.

r Revised since previous issue.

— Break in continuity of series (where drawn across a column between two consecutive figures).

A blank space in a column of figures means the figure concerned is not yet available.

When the symbol "p" or "r" is placed in the column headed "Period" (as for example on page 15) it refers to all figures on that particular line.

(a) Principally motor vehicles and parts.

(b) Electrical machinery, apparatus and appliances.

RETAIL SALES

The figures below relate to retail sales of goods (as distinct from services, repairs, etc.) from fixed premises at which goods are normally sold by retail to the general public. Goods sold from hotels, garages, and service stations, are included but those from establishments such as clubs and guesthouses are excluded. Figures for the year 1961-62 are derived from a census but other figures are estimates based on sample surveys.
